AMBULANCE INSPECTION FORM

**AUTHORIZED EQUIPMENT:** Ambulance services must carry equipment and medications as required by the current Guam EMS Protocols and Guidelines. Ambulance services should not equip ambulances with equipment that is outside of scope of practice of its EMT employees, or outside of the service's level of licensure.

**PERFORMANCE STANDARDS:** All equipment must be designed and constructed to meet current industry standards and be in compliance with the Commission on Accreditation of Ambulance Services (CAAS), Ground Vehicle Standard (GVS) and National Fire Protection Association (NFPA) 1917.

**MAINTENANCE:** All equipment and supplies must be maintained according to manufacturer's specifications with regard to maintenance, storage, expiration date, replacement, etc.
