VIII Announcements	<p>practitioners; therefore, guidance from the GBEP was provided. The Chair stated that the position of the American Medical Association is that it is unethical for practitioners to self-prescribed or provide prescriptions to family members. Although there is no written policy in the GBEP Rules and Regulations, there is reference in the CSR to what is authorized for emergency medical situations. A. Mariano stated that the practices in other jurisdictions differ, so there is no uniformed standard, and although it is discouraged by the AMA, not all practitioners are AMA members. He stated that more clarification on the inquiry would be required to fully address the question and would be dependent on the jurisdiction's rules and regulations, have to be addressed by the corresponding Board of Pharmacy on the specific situation. For Guam, self-prescription would not be allowed to include controlled substances; however,, the GBEP was unsure if this issue is addressed in the GBME and GBAHE Rules and Regulations. J. Caruso suggested that the GBEP could address this item in the review of the Rules and Regulations, and the Chair agreed.</p> <p><b>A.
