	Dr. Miller presented and the GBAHE discussed a theoretical question regarding a chiropractor, e.g., graduates and immediately moves to a foreign country, before taking a state board exam and being licensed; he eventually meets all four requirements of the national board but never practices in the US. Then he subsequently re-enters the US after practicing in a foreign country for 1.5 years. The Chair stated applicants must comply with US standards, Guam mandate, to include the GBAHE Rules and Regulations. She emphasized that GBAHE needs to ensure the standards are adhered to in order for the GBAHE to perform its duty to protect the public.			Noted
	Dr. Chong stated that he submitted a letter to the Board regarding the authorization for Chiropractor to perform dry needle. The Chair stated that recently approved law authorized dry needle for physical therapy; however, there is suggestion for dry needling to be extended to licensed chiropractors. Dr. Chong stated that the issue was not brought before the Board and he did not have the opportunity to oppose the change to authorize physical therapists of this procedure. Dr. Miller stated that the Board did not have the opportunity to review the update proposal before it went to the Legislature. The Chair stated that they would have work on this issue since the law has been passed. S. Crisostomo suggested that the issue be discussed in a work group meeting. The Chair agreed to convene a work group meeting, led by Dr. Miller. Upon the request for clarification by Asst AG Finney, the Chair stated that this issue will be addressed in a work group session; not a Board meeting.			Convene a Work Group Session

## Proposed Issuance of Underground Injection Control System Operating Permit for Northern Plaza Investors, LLC

Public Review and Comment Period: October 7 - November 6, 2023

The Guam Environmental Protection Agency (Guam EPA) runs the Underground Injection Control (UIC) Program, as mandated by the Safe Drinking Water Act, and approved by U.S. EPA.

The Agency regulates all applicable activities as set forth in the Guam's UIC Regulations. The UIC Program requires operating permits for all existing injection wells systems. This includes wells built prior to the approval of the regulations are still in operation, and wells/systems constructed after the effective date of the regulations.

Guam EPA has received a renewal application from Northern Plaza Investors, LLC, for one injection system located at the parking lot of Dededo Mall. The facility consists of court satellite, bank, beauty shops, clothing and convenient stores and restaurants.

On the basis of a preliminary UIC requirement review, the Administrator has proposed issuing UIC permit to allow discharges of stormwater runoff into the injection system.

The discharges contain stormwater runoff only. No industrial discharges or any discharges are allowed into the system.

The permit for this application will require:

1. Only stormwater runoff to be discharged into the injection system
2. Semi-annual monitoring of water quality for MBAS, Oil and Grease, NO3-N, Endrin, Lindane, Toxaphene, 2, 4-D, 2, 4, 5-TP Silvex, Heptachlor, Maltoxychlor, Lead, Benzene, Ethylbenzene, Xylene, Toluene, MTBE, Boron, COD, and pH.
3. Assurance regarding repairs, replacement or abandonment of the well/system in the event of failure.
4. A laboratory analysis report of runoff water taken from the designated sampling point of the system; and
5. Compliance with other UIC requirements.

A copy of the Draft Permit and Permit Application for the above applicant and all other supporting document are available for public inspection from 8 a.m. until 5 p.m. Monday through Friday at the Water Resources Management Program Section of the Water Division, Guam Environmental Protection Agency, located at 17-3304 Mariner Ave., Tiyen, Barrigada 96913.

For more information, contact Ms. Susan Marquez, at (671) 360-4778 or at, (671) 300-4751

Written comments on the draft permit may be hand delivered or mailed to the address below. Comments must be received by Guam EPA no later than 5 p.m., Monday, November 6, 2023. No fax submissions will be accepted.

Administrator  
 Guam Environmental Protection Agency  
 17-3304 Mariner Avenue, Tiyen  
 Barrigada, Guam 96913

If there are no appeals, the Draft Permit becomes final. Operation of the injection system identified by the applicant may proceed subject to the conditions of the permit and other applicable legal requirements.

The final decision to set conditions and issue the final permit or deny application for the permit will be decided after all comments have been considered. If no comments are received within the 30-day waiting period, the final permit shall be issued immediately after the commenting period closes.

Please bring this information to the attention of all persons who may be interested in this matter.
