| | <p>7. GBME-CO-2023-002. Dr. Berg reported that the complaint does not appear to be related to healthcare service delivery, but more related to Physician - Patient interaction. Dr. Berg stated that he would first consult with Z. Pecina-HPLO on this matter.</p> | Dr. Berg | | On-going |
| | <p>B. Discussion of Telemedicine – Continued. The Chair reported that the concerned entities were duly informed that medications could not be prescribed nor meeting could not be provided without the involvement and presence of a Guam licensed physician. The matter is considered closed.</p> | | | Closed |
| | <p>C. International Association of Medical Regulatory Authorities. The Chair explained the benefits of the GBME participating in this forum, especially since the Board would gain valuable insight on how physicians are managed in other jurisdictions throughout the world (i.e., outside the USA). In addition, this forum is run by the FSMB and the fee would be waived for the first year, with very inexpensive fees for subsequent years. <i>Motion to apply for membership: Dr. Berg.</i></p> | | 1609 | Unanimously Approved |
| | <p>D. Formation of an Impaired Provider Program. <i>Motioned to approve the Chair or designee and HPLO Administrator or designee to initiate discussions with and invite TN to train Guam professionals on an Impaired Provider Program, with the aim to establish a independent, non-punitive program, in Guam, to be done in consultation with TN and in coordination and</i></p> | | | Unanimously Approved |

Mandatory Opioid CME. NOTE; See Agenda Item VII. I below.</p> <p>I. Controlled Substance Registration (CSR). The Chair, with the assistance of HPLO, sent a letter to the licensed physicians (with CSR) stated the mandatory requirement to complete Opioid CME. Since the office responsible for managing CSR did not take the initiative to do this notification, he believes that the CSR registration fees could be put to better use. He, therefore, suggested that the fee amount could be reduced and directed to support Opioid education and development of an Impaired Provider Program. <i>The Chair recommended deferring GBME action on this topic until he had the opportunity to discuss the foregoing approach with the Speaker of the Legislature.</i></p> <p>J. Uniform Application. The Chair stated that all states and jurisdictions have been requested to implement a uniform application immediately, such as incorporating the FCVS process, amending references to mental health challenges (current versus past two years), etc. <i>Motion to approve the Chair and the HPLO Administrator to start this process: Dr. Berg</i></p> <p>K. Full Digital Service from the Guam Board of Medical Examiners. NOTE: Reference Agenda Item VII. J., above. <i>Motion to approve the Chair and the HPLO Administrator to start this process: Dr. Berg.</i></p> <p>L. Duty to report. Z. Pecina - HPLO stated that there is a duty to report (twice per year) any discipline termination, revocation and limitation of credentials. The Chair stated that he will be working with HPLO to obtain copies of health provider credentialing policies to ensure there is appropriate wording regarding "a duty" for physicians to self-report. He is hopeful that this effort could be completed in the near-term so that Guam could be recognized as one of the first in the nation to meet this objective. He stated that this would be an opportunity to also address an impaired provider program in addressing mental health and substance abuse issues in consultation with TN, as discussed in Agenda Item VII.D, above, where non-punitive language could be incorporated. **Proposed Issuance of Underground Injection Control System
Operating Permits for Mobil Oil Guam Inc.**

Public Review and Comment Period: August 10, 2023 to September 08, 2023

The Guam Environmental Protection Agency (Guam EPA) runs the Underground Injection Control (UIC) Program, as mandated by the Safe Drinking Water Act, and approved by U.S. EPA.

The Agency regulates all applicable activities as set forth in the Guam's UIC Regulations. The UIC Program requires operating permits for all existing injection wells/systems. This includes wells built prior to the approval of the regulations are still in operation, and wells/systems constructed after the effective date of the regulations.

Guam EPA has received applications from the Mobil Oil Guam Inc. for injection systems located at Maite Mobil Service Station, Route 8, Barrigada. The facility is a filling/gas service station with convenience store and subsurface drainage system within parking areas.

On the basis of a preliminary UIC requirement review, the Administrator has proposed issuing UIC permits to allow discharges of storm water runoff into the injection systems.

The discharges contain stormwater runoff only. No industrial discharges or any discharges are allowed into the systems.

The permits for these applications will require:

- 1 - Only stormwater runoff to be discharged into the injection systems
- 2 - Semi-annual monitoring of water quality for MBAS, Oil and Grease, N03-N, Endrin, Lindane, Toxaphene, 2, 4-D, 2, 4, 5-TP Silvex, Heptachlor, Methoxychlor, Lead, Benzene, Ethylbenzene, Xylene, Toluene, MTBE, Boron, COD, and pH;
- 3 - Assurance regarding repairs, replacement or abandonment of the wells/systems in the event of failure;
- 4 - A laboratory analysis report of runoff water taken from the designated sampling point of the systems; and
- 5 - Compliance with other UIC requirements.

A copy of the Draft Permits and Permit Applications for the above applicant and all other supporting document are available for public inspection from 8 a.m. until 5 p.m. Monday through Friday at the Water Resources Management Program Section of the Water Division, Guam Environmental Protection Agency, located at 17-3304 Mariner Ave., Tiyan, Barrigada 96913.

For more information, contact Ms. Susan Marquez, at (671) 300-4778 or at (671) 300-4751.

Written comments on the draft permits may be hand delivered or mailed to the address below. Comments must be received by Guam EPA no later than 5 p.m., Friday, September 08, 2023. No fax submittals will be accepted.

If there are no appeals, the Draft Permits become final. Operation of the injection systems identified by the applicant may proceed subject to the conditions of the permits and other applicable legal requirements.

The final decision to set conditions and issue the final permits or deny application for the permits will be decided after all comments have been considered. If no comments are received within the 30-day waiting period, the final permits shall be issued immediately after the commenting period closes.
