

Pope lands in Canada on 'a trip of penance' for indigenous abuse

EDMONTON, Alberta (Reuters) — Pope Francis landed in Canada on Sunday to kick off a week-long trip that will center around his apology on behalf of the Roman Catholic Church for the abuse that indigenous children endured at mostly church-run residential schools.

"This is a trip of penance. Let's say that is its spirit," the pope told reporters after his flight took off from Rome.

The papal plane touched down in Edmonton in the western province of Alberta, where he will visit a former residential school and meet with indigenous peoples Monday. He is also visiting Quebec City and Iqaluit, the capital of the territory of Nunavut. He will depart Friday.

Between 1881 and 1996 more than 150,000 indigenous children were separated from their families and brought to residential schools. Many

Between 1881 and 1996 more than 150,000 indigenous children were separated from their families and brought to residential schools.

children were starved, beaten and sexually abused in a system that Canada's Truth and Reconciliation Commission called "cultural genocide."

The papal plane taxied with Canadian and Vatican flags flapping outside the cockpit windows. After disembarking with the help of a lift, the pope boarded a white Fiat 500X, which dropped him at the hangar. He then proceeded by wheelchair.

Governor General Mary Simon, who represents Canada's head of state, Queen Elizabeth, was the first to greet the pope. Canadian Prime Minister Justin Trudeau followed.

The pope sat between the two Canadian officials for a short performance of four drummers and native singing before several indigenous leaders, many wearing elaborate headdresses, greeted and exchanged gifts with him.

"I asked today the pope to walk with us," Grand Chief George Arcand of the Confederacy of Treaty Six First Nations said in an interview with the Canadian Broadcasting Corp. "It was a very humbling experience to talk to your holiness."

RoseAnne Archibald, national chief for the Assembly of First Nations, who also greeted the pope, criticized the "unilateral" organization of the trip and the "archaic" nature of the church, which has no women in lead-

ership positions.

"We don't feel that it has been about survivors" of residential schools, she told reporters at the airport. "It has been more about the church promoting the church's idea, fundraising for the church."

The pope left after the short ceremony in a wheelchair to speak for a few minutes in private with Trudeau and other officials before heading to St. Joseph Seminary, where he is expected to rest before Monday's events.

The 85-year-old pope canceled a trip to Democratic Republic of Congo and South Sudan in early July because of a knee problem that has recently forced him to use a wheelchair and a cane.

Meeting ID: 838 2045 1160
Passcode: 883142

Meeting Agenda:

- I. Call to Order:
 - (a) Roll Call
 - (b) Confirmation of Public Notice
- II. Approval of Agenda
- III. Review and Approval of Minutes:
 - Minutes of June 16, 2022
- IV. HPLD Administrator's Report
- V. Complaint(s):
 - (a) GBEP-CO-16-01
 - (b) GBEP-CO-17-01
- VI. Old Business:
 - (a) Pharmacies/Facilities/Wholesales
- VII. New Business:
 - (a) Pharmacists by Endorsement
 - (b) Pharmacy Technicians
 - (c) Pharmacies/Facilities/Wholesale
 - (d) Renewals 2022
- VIII. Announcement:
 - (a) The Guam Board of Examiners for Pharmacy Regular Session Meeting is scheduled for August 18, 2022 at 7:30a.m (Tentative)
- X. Adjournment:

Proposed Issuance of Underground Injection Control System Operating Permit DFS Guam Ltd.

Public Review and Comment Period: July 28, 2022 - August 26, 2022

The Guam Environmental Protection Agency (Guam EPA) runs the Underground Injection Control (UIC) Program, as mandated by the Safe Drinking Water Act, and approved by U.S. EPA.

The Agency regulates all applicable activities as set forth in the Guam's UIC Regulations. The UIC Program requires operating permits for all existing injection wells/systems. This includes wells built prior to the approval of the regulations are still in operation, and wells/ systems constructed after the effective date of the regulations.

Guam EPA has received a renewal application from DFS Guam Ltd. for one injection system located at Comet Bldg., San Vitores Road, Tumon, Guam. The commercial building has offices, restaurants, stores, and aquarium with sub-surface drainage system at parking area.

On the basis of a preliminary UIC requirement review, the Administrator has proposed issuing a UIC permit to allow discharges of treated water from the aquarium and stormwater runoff from the parking lot into the injection system.

No industrial discharges or any discharges are allowed into the system.

The permit for this application will require:

- 1 - Only treated water and stormwater runoff to be discharged into the injection system
- 2 - Monthly monitoring from the aquarium on certain parameters and semi-annual monitoring from parking lot of water quality for MBAS, Oil and Grease, NO₃-N, Endrin, Lindane, Toxaphene, 2, 4-D, 2, 4, 5-TP Silvex, Heptachlor, Methoxychlor, Lead, Benzene, Ethylbenzene, Xylene, Toluene, MTBE, Boron, COD, and pH;
- 3 - Assurance regarding repairs, replacement, or abandonment of the system in the event of failure;
- 4 - A laboratory analysis report of treated and runoff water taken from the designated sampling point of the system; and
- 5 - Compliance with other UIC requirements.

A copy of the Draft Permit and Permit Application for the above applicant and all other supporting document are available for public inspection from 8 a.m. until 5 p.m. Monday through Friday at the Water Resources Management Program Section of the Water Division, Guam Environmental Protection Agency, located at 17-3304 Mariner Ave., Tiyan, Barrigada 96913.

For more information, contact Ms. Susan Marquez, at (671) 300-4778 or (671) 300-4751.

Written comments on the draft permit may be hand delivered to the address below. Comments must be received by Guam EPA no later than 5 p.m., Friday, August 26, 2022. No fax submittals will be accepted.

Administrator
Guam Environmental Protection Agency
17-3304 Mariner Avenue
Barrigada, Guam 96913

If there are no appeals, the Draft Permit becomes final. Operation of the injection well/system identified by the applicant may proceed subject to the conditions of the permit and other applicable legal requirements.

The final decision to set conditions and issue the final permit or deny application for the permit will be decided after all comments have been considered. If no comments are received within the 30-day waiting period, the final permit shall be issued immediately after the commenting period closes.

Please bring this information to the attention of all persons who may be interested in this matter.

/s/ WALTER S. LEON GUERRERO - Administrator
